STATE CLEARINGHOUSE

---

# NEWSLETTER

**April 1 through 15, 2000**

## **STATE CLEARINGHOUSE NEWSLETTER**

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **April 1 through 15, 2000**.

### **CLEARINGHOUSE CONTACTS**

Please contact the Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613.  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse.html#clearinghouse](http://www.opr.ca.gov/clearinghouse.html#clearinghouse)

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte (for projects in Northern California)  
Scott Morgan (for projects in Southern California)

### **CLEARINGHOUSE MAILING ADDRESS**

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

### **INFORMATION AVAILABLE ON-LINE**

The 1999 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available at [http://ceres.ca.gov/planning/pub\\_org.html](http://ceres.ca.gov/planning/pub_org.html).

# Federal Notices

## **Intergovernmental Review Notices (April 1 through 15, 2000)**

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

**AGENCY:** Federal Energy Regulatory Commission

**CONTACT:** Fred Springer

**TELEPHONE:** n/a

**ADDRESS:** Federal Energy Regulatory Commission  
Washington, D.C. 20426

**DESCRIPTION:**

Federal Energy Regulatory Commission has given notice of extending the deadline for the trout stocking plan required for the California Aqueduct Project (FERC No. 2426) by a Commission's order on October 25<sup>th</sup>, 2000. The deadline is extended to March 23<sup>rd</sup>, 2000 and requests for rehearing by the Commission may be filed within 30 days of the date of issuance of this order, pursuant to 18 CRF 385.713.

**CONTACT:** Betty Simpson

**TELEPHONE:** 916-978-5196

**ADDRESS:** Bureau of Reclamation  
Mid-Pacific Regional Office  
2800 Cottage Way  
Sacramento, CA 95825-1898

**DESCRIPTION:**

The Bureau of Reclamation will hold a public meeting on Tuesday, April 18 to discuss the Urban Water Supply Reliability Policy for long-term Central Valley Projects water service contracts. The meeting will begin at 10:00 a.m. in the Camellia Room, Red Lion Sacramento Inn, 1401 Arden Way. A copy of the Administrative Proposal and the 1994 policy may be obtained on the Reclamation's website at [http://www.mp.usbr.gov/cvpia/3404c/cal\\_long.html](http://www.mp.usbr.gov/cvpia/3404c/cal_long.html).

**COMMENT BY:**n/a

**AGENCY:** Bureau of Reclamation

**CONTACT:** Karl E. Wirkus

**TELEPHONE:** 541-883-6935

**ADDRESS:** Bureau of Reclamation  
Mid-Pacific Regional Office  
2800 Cottage Way  
Sacramento, CA 95825-1898

**DESCRIPTION:**

The Bureau of Reclamation's Klamath Basin Area Office has updated expected water supply conditions for the Klamath Basin. The forecasted inflow to Upper Klamath Lake is considerably less than it has been in recent years. Due to precipitation being low, there will be an increase in demand for irrigation deliveries to farms in the Klamath Basin. Reclamation is evaluating possible alternative water supplies.

<b><u>Documents Received on Monday, April 03, 2000</u></b>			
2000041002	Borba Dairy & Calf Raising (PSP 99-055) Tulare County Pixley--Tulare Establish a new dairy and expand an existing calf raising operation on approximately 90 acres of an 810 acre subject site. The balance of the acreage will remain under cultivation and available for irrigation with reclaimed dairy wastewater.	con	04/25/2000
1999031092	Dalidio Property Annexation San Luis Obispo, City of San Luis Obispo--San Luis Obispo The Dalidio Property Annexation project includes two principal components: 1) the annexation of 131 acres to the City of San Luis Obispo; and 2) the construction of a freeway interchange at the intersection of Prado Road and U.S. Highway 101. The development of the annexation area is contingent upon the construction of the Prado Road interchange. The following discussions describe the tow components of the project. The proposed project would include the annexation and pre-zoning of the 131 acre Dalidio Property. The eastern portion (88.1 acres) of the site, termed the Commercial Annexation would be annexed and pre-zoned immediately while the western portion of the site, called the Residential Annexation (42.9 acres), would be annexed and pre-zoned at a later date. The Commercial Annexation of the proposed project includes 40 acres of commercially designated land, 40 acres of land designated for permanent open space protection, and 8.1 acres that would be dedicated for freeway and roadway construction throughout the site. The Residential Annexation portion of the proposed project includes 11.1 acres designated for Medium-High Density Residential, 9.2 acres in "reserve" open space for future consideration of additional urban uses, a 7.0 acre Laguna Lake Park extension, 13.5 acres designated for permanent open space protection, and 2.1 acres that would be dedicated for roadway construction throughout the site. The project would also include the construction of a freeway interchange at Prado Road, the construction of a freeway auxilliary lane on the east side of the freeway, from Prado Road to Madonna Road, the realignment of Elks Lane, and the extension of Prado Road to Madonna Road. The proposed auxilliary lane would be constructed within the existing Caltrans right-of-way.	eir	05/17/2000

1997102007	County Jail No. 3 Replacement Project San Francisco, City and County of SAN BRUNO/PACIFICA--SAN MATEO The proposed project would construct a new jail to replace the existing Jail No. 3 building, would construct other ancillary facilities, and would result in the demolition of the existing Jail No. 3 building. All elements of the project would occur on San Francisco's 158 acre county jail complex in unincorporated San Mateo County.	<b>nod</b>	
1998102074	James Huber Special Permit Humboldt County Carlotta--Humboldt A Special Permit after the fact for work performed without permits to cut, grade and fill approximately 160 cubic yards of material to prepare a site for future residential construction.	<b>nod</b>	
1998122001	Silverbrook "Island" project Folsom, City of The applicant proposes to extend a sewer line and construct a new bridge.	<b>nod</b>	
1999091012	TM 5103, R96-006, AD 99-037, Log No. 96-14-022; LaLani Tentative Map San Diego County, DPLU --San Diego The project is the subdivision of 14.1 acres into 21 lots for single family residential development. The lot sizes will be 0.5 acres. The project involves the grading of 68,000 cubic yards of balanced cut and fill. Maximum slope heights will be 20 feet with a slope gradient ratio of 2:1. Some retaining walls will be required with a maximum height of six feet. Access to the project site will be off of Sundown Lane onto a cul-de-sac bisecting the property length-wise. The project will receive public water and sewer service. The project requires approval of a tentative map for the land subdivision, a rezone to change the zoning use regulation from A70 limited agriculture to RR2 rural residential, and an administrative permit for the creation of a homeowners association.	<b>nod</b>	
1999102059	09-MNO-395-KP 184.59 (PM 114.7) California Department of Transportation Mono City--Mono The California Department of Transportation (Caltrans) proposes to reclaim an existing sand and gravel materials site east of State Route 395 at KP 184.59 (PM 114.7) 4.83 Kilometers (3.0 Miles) east of Topaz in Mono County. No permanent buildings or equipment would be constructed or stored on site. A total of 1.98 ha (4.9 acres) would be reclaimed.	<b>nod</b>	
1999112003	Mathews, Francis MAJOR SUBDIVISION; CASE NO. FMS-99-01 Humboldt County Planning Department Eureka--Humboldt A Coastal Development Permit and Final Map Subdivision for the re-subdivision of three parcels totaling 10.14 acres in size into nine (9) lots ranging from 20,000+/- s.f. to 194,165+/- s.f. and a zone boundary adjustment shifting the zone boundary line between the RS-20 zone district and the RA-5 zone district to conform to the edge of 30% slope break/edge of heavy vegetation. Additionally, an exception is requested to the required 40' wide access road easement to serve two of the lots.	<b>nod</b>

As proposed, in addition to the primary racetrack the facility would include provisions for a commercial coach office, two bleacher stands, and a "pee wee" racetrack. The course would be open year-round. Practice sessions would generally occur on Wednesdays and Saturdays between 8:00 a.m. and 5:00 p.m.. Race events would be held on Sundays between 8:00 a.m. and 5:00 p.m.. Two special events, one in July and the other in October, would be held each year. Water supply would be via an existing off-site well while sewage disposal would be by private septic tank. Vehicular ingress and egress would be through an adjacent drag strip facility off of Famoso Road which is designated as a arterial/major highway alignment by the Circulation Element of the General Plan.</p>	neg	05/03/2000
2000041008	<p>Student Housing Project Cal State Fullerton Fullerton--Orange</p> <p>Cal State Fullerton proposes to construct 110 student housing units (833 bed spaces), an administration building, a maintenance building and landscaping. Renovation of certain spaces on an existing student housing building is also proposed.</p>	neg	05/03/2000
2000041009	<p>Hillside Village South Dana Point, City of Dana Point--Orange</p> <p>The project proposes 91 residences (fewer units than previously approved) on a 14.6 gross acre site. The project includes both detached (33 dwelling units) and attached residences (58 dwelling units) with a gated project access provided from Pacific Coast Highway. Vesting Tentative Tract Map 14605 is proposed to be revised to be consistent with the proposed site plan design.</p>	neg	05/03/2000

1998092052	<p>Proposed Basin Plan Amendments: Total Maximum Daily Loads and Implementation Plan for Indian Creek Reservoir, Alpine County Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe SOUTH LAKE TAHOE--NUMEROUS The Regional Board proposes to adopt amendments to the Lahontan Basin Plan to incorporate TMDLs and an implementation plan to reduce loads of total phosphorus to Indian Creek Reservoir. The numeric target for the TMDLs will be set at a level, lower than the current water quality objective, which the literature indicates will maintain mesotrophic rather than eutrophic conditions. (The exact target number will be determined after completion of TMDL modeling.) The objective, set in 1975, was based on conditions which could be achieved when the reservoir was receiving tertiary wastewater effluent. A literature search indicates that a total phosphorus concentration at the level of the objective, (which is currently being exceeded) would maintain eutrophic conditions even if it were attained. Based on the literature, attainment of the new target should, over the long term, result in mesotrophic conditions in the reservoir and reduced risks of blue green algae blooms, reduced water clarity, low dissolved oxygen levels, fish kills, and other symptoms of eutrophication. The existing water quality abjective is not proposed for revision at this time.</p>	<b>nop</b>	05/03/2000

<b><u>Documents Received on Wednesday, April 05, 2000</u></b>			
1998071052	Rancho Los Alamitos Barns Area Restoration and Education Center Long Beach, City of Long Beach--Los Angeles Conversion of an existing barn to a 11,502 Square feet Education Center, construct a bookstore and classroom building.	eir	05/19/2000
1999081078	GPA/ZC P99-0482 Program Environmental Impact Report Bakersfield, City of Bakersfield--Kern The proposed project is a concurrent general plan amendment and zone change for 170.90 acres. Proposed land use amendments requires changes from light industrial, service industrial and heavy industrial land use designations to low density residential, low medium density residential and general commercial.	eir	05/19/2000
2000012003	Janes Creek Meadow (Residential Subdivision) Arcata, City of Arcata--Humboldt The project is to subdivide two parcels, totaling 20.9 acres, into 61 residential lots. This will include 59 new residential lots and two lots with existing residences and structures. Of the 20.9 acres included in the project approximately 12.8 will be developed with streets and lots. The remaining acres are proposed to be dedicated as wetlands and creek protection zone (7.3. acres) and a park (0.8 acres). The project site is in the north central portion of the city of Arcata, is designated for Residential Medium Density Use (with Planned Development overlay), is mostly flat, and includes a portion of Janes Creek and a tributary of Janes Creek. The project purpose is to develop the site for residential use and restore the onsite portion of Janes Creek and the tributary. The project includes relocating a portion of the Janes Creek tributary, filling a portion of the tributary channel and associated wetlands, and creating a stormwater detention basin and replacement wetland within the 7.3 acres to be deeded to the City of Arcata. The project also includes restoration of the portion of the main channel of Janes Creek that lies within the property. Four historic structures located from the City of Arcata and other public agencies. The site is in private ownership and is proposed to be privately developed. The City would potentially receive the proposed creek corridors and a public park.	eir	05/19/2000

Documents Received during the Period: 04/01/2000 - 04/15/2000

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Wednesday, April 05, 2000</u></b>			
	reconstruction of a damaged grouted rip-rap bridge protection structure/wingwall at Laramie Street and stabilizing the toe of severely eroded banks at two small locations with rip-rap/vegetation 1) upstream adjacent to the park/Library complex, and 2) downstream adjacent to a residence. The second site (called Sites 2 and 3) lies in the stream reach from the bend upstream from the county courthouse to the Highway 89 bridge. In this area, materials deposited during flow events are causing a redirection of stream flow against streambanks, resulting in undercutting, bank erosion, and loss of land, potentially threatening utility lines and county roads if left unchecked. The repair at this site includes stabilizing existing banks through placement of rock in a vortex "hole", rip-rap/vegetation/geogrid at at-risk locations, and installation of rock or log veins along the eroded bank.		
2000042011	Sand Creek Road Extension Brentwood, City of Brentwood--Contra Costa Extension of Sand Creek Road between Fairview Avenue and Sand Creek Loop Road. A new crossing of Marsh Creek and an expanded crossing of Sand Creek is proposed as are two new storm drain outfalls.	neg	05/04/2000
2000042014	Safeway Inc. South Lake Tahoe, City of South Lake Tahoe--El Dorado The proposed project requires Design Review approval. The project consists of demolishing the existing Safeway in order to construct a new single tenant building and parking lot for a grocery store (Safeway). The new building will increase from the existing 29,740 square feet to 55,581 square feet. The project proponents have obtained commercial floor area from a variety of sources including: 12,541 square feet from the private sector, and wish to obtain 4,500 square feet from the Bijou Community Plan and purchase an additional 8,800 square feet from the City of South Lake Tahoe. The project proponent has submitted a transfer application to the Tahoe Regional Planning Agency. Architecturally the new project will have a positive visual effect on the site since the existing store is somewhat unattractive. There is a large amount of pavement and the outdated building is situated adjacent to Highway 50. The result is a building that will be articulate with changes suggested by City Planning staff. In addition, there will be an abundance of landscaping, including some large mature trees to screen the back of the store. The parking lot and street frontage will be heavily landscaped as shown on the landscape plans. Setbacks from the highway are proposed to be 380 feet. The proposed project includes a loading dock (screened on the west side of the building), approximately 322 parking spaces, landscaping and three retention basins. The parking requirements is 371 stalls, with a maximum of 26 compact stalls, and eight required handicap accessible stalls. A traffic and parking analysis was prepared by Leigh, Scott and Cleary for this project indicating that the 322 spaces are more than adequate. (The Bijou Commercial District Plan allows parking to be reduced from the city-wide parking ordinance requirements based on a parking study.) A special Use Permit will be required to review the request to reduce the required parking. The access for this project will be the two existing Highway 50 driveways and the	neg	05/04/2000

1993011010	Draft Environmental Impact Report-Walnut Hills Development Project Walnut, City of Walnut--Los Angeles Proposed is the development of a vacant 551.4-acre site located in the City of Walnut for 268 single-family residential dwelling units and an 18-hole public golf course. The project site is bordered on the west by the closed Class I and Class III BKK Landfill in the City of West Covina, on the north by undeveloped hillside areas, and on the south and east by existing residential development.	eir	05/22/2000
1998112074	Saddle Creek Rezone & Tentative Subdivision Map & Pringle Avenue Rezone Sacramento County Galt--Sacramento Rezone from AG-20, AR-10 and AR-10(F) to AR-2 Subdivision Map to create 31 or 64+ acres on the northernmost site.	eir	05/22/2000
1999111054	City of Grover Beach Downtown Project Grover Beach, City of Grover Beach--San Luis Obispo Traffic calming measures including mid-block pedestrian crossing in 900 block of Grand Ave.; bulb-outs at all intersections from 8th to 11th Streets along Grand Ave.; decorative pavers at intersections from 8th to 11th Streets; new traffic signal at 11th Street; timing of signals at 8th, 9th, 11th, and 13th Streets to achieve vehicle speed of 25 mph; landscaped medians; repaired sidewalks, upgraded street furniture.	eir	05/22/2000
2000011083	Village Redevelopment Project Amendment No. 6 (Claremont Consolidated Redevelopment Project) Claremont, City of Claremont--Los Angeles The proposed project entails the adoption of an amendment to the Village Redevelopment Plan in accordance with the standards of the California Community Redevelopment Law (CRL), Health and Safety Code Section 33000, et seq. The Plan Amendment would add 329 acres to the existing Village Redevelopment Project Area which encompasses 214 acres. The 329-acres Plan Amendment Area includes 232 acres of the existing Foothill Project Area and 97 acres of new area not previously in a redevelopment area. Environmental Impact Reports (EIRs) have been approved previously for the Village Project Area and the Foothill Project Area.	eir	05/22/2000
2000041018	Greenspot Sphere Area General Plan Amendment, Pre-Zoning and Annexation Highland, City of Highland--San Bernardino Approval of General Plan Amendment, Pre-Zoning & Annexation to include the expanded Greenspot Sphere of Influence into City's General Plan Zoning map. Private owned land and former borrow areas will be designated Rural Living 1 dwelling unit per 5 acres consistent with their current land use designation in San Bernardino County. (Leading to future Annexation of area.)	neg	05/05/2000

2000041020	Shelley General Plan Amendment & Zone Change (GPA-4-99 and ZA-8-99) Oceanside Planning Department Oceanside--San Diego The proposed project is a general plan amendment and zone change from Commercial Professional to High Density Residential and Open Space designations.	neg	05/05/2000
2000041021	General Plan Amendment GPA-00-002, Eagle Glen SPA-00-003, CFPA-00-001 & TTM 29571 Corona, City of Corona--Riverside The proposed project will consist of four planning development applications to accommodate residential development in an area of the city known as Eagle Glen. A brief summary and description of the applications are as follows: 1. GPA-00-002 : This proposed general plan amendment will amend the general plan land use designations of the project area to accommodate the proposal associated with SP-00-003. Parcel A (78.25 acres) will be amended from Agricultural/Rural Residential to Low Density Residential (0-6 du/ac), and Parcel B (37.38 acres) and C (39.62 acres) will be amended from Estate Residential (0-3 du/ac) to Low Density Residential. 2. SPA-00-003 : This proposed specific plan amendment will add approximately 160 acres of land into the Eagle Glen Specific Plan, add approximately 360 new residential units into Eagle Glen, and establish a new SFI land use, designation with respective planning areas for 8,400 square foot lots. To properly reflect the proposed changes, the information within the Eagle Glen Specific Plan, known as SP-90-6, will be changed and / or amended accordingly. 3. CFPA-00-001 : This proposed South Corona Community Facilities Plan Amendment will readjust the CFP boundary to coincide with the project boundary associated with SPA-00-003. The acreage associated with this amendment will affect approximately 4.16 acres. 4. TTM 29571 : This proposed subdivision will subdivide approximately 130 acres of land into 6 numbered lots and 16 lettered lots. This subdivision is known as the "A" map and will dedicate the required master planned infrastructure improvements to necessitate in the development of future residential.	neg	05/05/2000
2000041022	State Route 134/Hollywood Way Ramp Improvements Caltrans #7 Burbank, Glendale, Los Angeles, City of--Los Angeles The California Department of Transportation is proposing construction of ramp improvements on State Route 134 at Hollywood Way in the City of Burbank, Los Angeles County. The project limits extend roughly from California Street to Pass Avenue in the City of Burbank. The proposed ramp improvements would include constructing a new westbound on-ramp from either Alameda or at the Olive Avenue overcrossing. This proposed project involves additional right-of-way.	neg	05/05/2000
2000041023	Beechtree Street Drainage Improvements (UJ1674) San Diego County, DPW Lakeside--San Diego Beechtree Street Drainage Improvements, UJ1674 The project involved the reinforced concrete lining, of an approximately 1,100 foot portion of an existing soft-bottom drainage channel. Both the bottom and the sidewalls will be concrete	neg	05/05/2000

	lined. Typically, the drainage is trapezoidal in shape with a width of 40 feet and a depth of 6 feet. In the portions of the project area where the channel exceeds 3 feet, weep holes will be constructed into the channel to relieve pressure from moisture build-up underneath the concrete structure. As a result of comments received during the original public review period for the project, which began on December 21, 1999 and ended on January 10, 2000, the project has been modified to now propose a 698 foot long concrete lined channel. The channel is designed to convey a 100-year storm event and to reduce flood damage to private property along the channel. The drainage channel improvements occur along Beechtree Street as Follows: 300+/- feet west of Beechtree and Tamil to 398 +/- feet east Replacement of existing culvert pipe under Beechtree Street with a reinforced concrete box culvert to existing headwall north of Beechtree Street Placement of two siltation berms in the concrete channel		
2000042015	Freshwater Creek Recreational Dam Humboldt County Freshwater--Humboldt The project is the installation of a temporary, recreational dam on freshwater creek in order to provide a public swimming facility. This has been done annually since about 1939. Originally an earthen dam, it was changed to a flash board dam in 1980.	neg	05/05/2000
2000042016	99.151E Sanitary Fill Company Solid Waste Facility Permit Revision San Francisco, City and County of San Francisco, Brisbane--San Francisco, San Mateo Revision to Solid Waste Facility Permit to allow for: (1) the removal of scheduling restrictions on refuse fleet hauling; (2) an increase in permitted vehicle trips per day; (3) approval to stage and handle source-separated organic waste as a separate waste stream; (4) approval to enclose the construction and demolition debris sort line and increase the hours of sort line operation; and (5) removal of the Household Hazardous Waste Collection Facility from the solid waste Facility Permit.	neg	05/05/2000

<b><u>Documents Received on Thursday, April 06, 2000</u></b>			
1999071082	Brea Highlands Specific Plan EIR Brea, City of Brea--Orange The proposed project involves development of a comprehensive plan for the reuse of 823.7 acres of land that has been historically, and is currently, used for oil and gas production. The proposed master-planned community includes residential, recreational, commercial, and oil production uses. The plan provides for approximately 509.3 acres as open space and improved greenbelts and trails; approximately 241.5 acres to be devoted to the development of 1,445 residential units in 10 distinct neighborhoods; approximately 23.5 acres as neighborhood parks; and approximately 3.5 acres to be developed as a neighborhood convenience retail center. Approximately 28.4 acres of the master-planned area will be allocated to oil field-related facilities.	<b>nop</b>	05/05/2000
1999121084	Jonata Park Road Bridge Replacements Santa Barbara County Buellton--Santa Barbara The project will involve removal and replacement of the existing bridges in order to bring them up to current design standards. Bridge 51C-225 will be replaced with an extension of the existing arch culvert, which conveys flows under U.S. Highway 101 immediately north of Jonata Park Road. Bridge 51C-226 will be replaced with another bridge structure. The project will also include a temporary access route from U.S. Highway 101 connecting to Jonata Park Road at its northerly terminus along with a temporary left turn lane in the freeway median. The project will involve temporary right of entry for construction from adjoining private property owners and from Caltrans.	<b>nod</b>	
2000049004	Otay Ranch Cultural Resource Studies Text Amendment San Diego County, DPLU --San Diego The project consists of text changes to the Otay Ranch General Development Plan/Subregional Plan (GDP/SRP), and identical changes to linked sections of the Otay Ranch Resource Management Plan (RMP). The proposed revisions alter the former GDP/SRP language that requires cultural resource surveys for each major Otay Ranch parcel, prior to processing of the first Sectional Planning Area/Specific Plan Area (SPA) on that parcel. That direction was appropriate at the time of GDP/SRP adoption, when there was only two major landowners/developers. However, now there are ten owners/developers, each with their own agendas and priorities. The proposed changes recognizes the different circumstances by permitting completion of the required cultural resource surveys on an ownership basis, prior to the processing of any SPA for that ownership.	<b>nod</b>	
2000049005	American Tower Corporation Colusa County Grimes--Colusa Use Permit #00-1-3 for the purpose of establishing an unmanned wireless colocation facility including a 140' tall metal lattice tower with antennas, concrete equipment pads and appurtenant facilities.	<b>nod</b>

<b><u>Documents Received on Friday, April 07, 2000</u></b>			
1999061027	City of Atwater General Plan Update and Draft EIR Atwater, City of Atwater, Winton--Merced The City of Atwater is preparing a comprehensive General Plan Updated.	eir	05/22/2000
1999121050	Demolition of 862 & 844 Van Ness Avenue Fresno County Fresno--Fresno This project EIR analyzes the potential environmental consequences of demolishing two existing buildings in downtown Fresno (862 Van Ness Avenue and 844 Van Ness Avenue) and constructing an approximately 174 thousand gross square feet, five story, 103 foot tall Fresno County administrative office on this site. 862 Van Ness Avenue is a two -story parking garage (referred to hereafter as the Arco garage building) that is a historic resource as defined in Section 15064.5. 844 Van Ness Avenue is a one-story furniture store with no historical significance.	eir	05/22/2000
2000022029	Flood Control Improvements Along The Mainstem of The American River Sacramento Area Flood Control Agency Sacramento--Sacramento The proposed Action would include continuation of the 400/670 TAF variable-space flood-storage operation at Folsom Reservoir which eventually shift to a 400/600 TAF flood-control diagram on completion of the other elements of the proposed action, including, increasing the outlet capacity of Folsom Dam, increasinng the emergency storage capacity (surcharge storage) of Folsom Reservoir, equalizing the height of the American River levees to allow passage of 160,000 cfs with 3 feet of freeboard, constructing an earthen levee with flap gates at Mayhew Drain, and raising and strenghtening levees in the South Sacramento Streams Group area. The program improvements are expected to provide protection from a 140-year flood event.	eir	05/22/2000
1997124004	Evolved Expendable Launch Vehicle (EELV) Program, Suppl. EIS U.S. Dept of the Air Force VANDENBERG AFB--SANTA BARBARA Implementation of the EELV program was previously assessed in the April 1998 Final Environmental Impact Statement, Evolved Expendable Launch Vehicle Program. The proposed Action of the SEIS is to allow the addition of up to five strap-on SRMs to the Lockheed Martin Astronautics (LMA) Atlas V launch vehicle and to allow the use of larger SRMs on the Boeing Delta IV launch vehicle, both of which are part of the EELV program. The launch locations for the Atlas V and Delta IV systems are Cape Canaveral Air Station (AS) in Brevard County, Florida, and Vandenberg Air Force Base (AFB), in Santa Barbara County, California. For the analysis in the SEIS, each contractor is assumed to launch approximately 50 percent of EELV flights involving SRMs (approximately 30 launches per year total). The No-Action Alternative is the previously approved implementation of the EELV program that was analyzed in the 1998 FEIS.	fin

1999041102	CENCO Refinery Upgrade Project Santa Fe Springs, City of Santa Fe Springs--Los Angeles CENCO is proposing modifications to the Refinery for several purposes: (1) to complete projects necessary for the Refinery to manufacture gasoline in compliance with the reformulated fuels requirements; (2) to replace support facilities that were removed from the Refinery operation; and (4) to add new facilities that will improve the operational efficiency and safety of the Refinery.	fin	
2000041024	State Route 134/San Fernando Road Access and Safety Improvements Program Caltrans #7 Glendale, Los Angeles, City of--Los Angeles The California Department of Transportation and the City of Glendale have prepared a Draft Initial Study/Environmental Assessment (IS/EA) on the proposed State Route 134 (SR-134)/San Fernando Road Access and Safety Improvement Program. The proposed will consist of ramp improvements to the SR-134 eastbound and westbound ramps at San Fernando Road and associated roadway improvements in the San Fernando Road Corridor Redevelopment Project Area of the City of Glendale in Los Angeles County. Project limits extend roughly from Los Angeles River west of San Fernando Road easterly to Pacific Avenue. The proposed improvements will enhance access to and from SR-134, provide congestion relief for regional and local traffic, and improve safety along the affected roadways with the grade separated crossing of Fairmont Avenue over San Fernando Road and the So. Cal. Regional Rail Authority right of way. Generally these improvements will be accommodated in the existing right of way, but additional right of way will be required.	jd	05/22/2000
2000041028	Fenner Canyon Conservation Camp Replacement Project Forestry And Fire Protection, Department of Lancaster--Los Angeles The California Department of Forestry and Fire Protection (CDF) proposes to construct two 1,984-square foot 4-bay Crew carrying vehicle storage buildings, one at a pave site near Building #3 and the other near a parking lot and picnic area. The project also the demolition of Building #6, a 1,100 square foot Storage facility, the construction of one 1,260 square foot storage building to house utility vehicles at the former site of Building #6, construct and renovate utility, including paving, sidewalks, water distribution and data/Drive network.	jd	05/08/2000
2000042021	Baseline Conservation Camp CDF Replacement Project Forestry And Fire Protection, Department of Jamestown--Tuolumne The California Department of Forestry and Fire Protection proposes to construct several new buildings and to remodel several existing facilities at the Baseline Conservation Camp in Tulumne County, California. The Baseline Conservation Camp is located at Peoria Flat near the New Melones Dam and the community of Jamestown. Camp operations are housed in temporary modular buildings that are in poor condition and that are inadequate for their current use. Inadequate utilities also would be replaced and a new generator would be installed.	jd	05/08/2000

1998112072	Egeria Densa Control Program Boating and Waterways, Department of Sacramento, Stockton, Tracy, Pittsburg, Antioch, Brentwood, ....--Sacramento, San Joaquin, Contra Costa The Department of Boating and Waterways has been legislatively mandated to develop a control program for the nuisance aquatic weed Egeria Densa in the Sacramento-San Joaquin Delta. The Department intends to carry out this responsibility by establishing an ongoing mechanical and chemical maintenance control treatment program for the weed, with the goal of reducing plant biomass.	eir	05/24/2000
1999012032	Planned Community-2 Specific Plan Truckee, City of Truckee--Nevada The proposed PC-2 Specific Plan project would involve the development of approximately 789 acres located in eastern Truckee north of Interstate 80 and on both sides of State Route 89 North (SR 89). The Specific Plan proposes the development of the site in four phases over a ten-year period, although phasing would depend upon market conditions. The Specific Plan proposes a number of land uses for the project site. Approximately 199.6 acres is designated for 427 single-family residential homes. Another 28.1 acres is designated for 173 multi-family residential units. Most residential units would be located in the eastern portion of the site, but some single-family residences would be located in the western portion. The Specific Plan also proposes two commercial areas-one area is a Commercial Center "Triangle" approximately 8.6 acres in size with roughly 80,000 square feet of commercial uses. The second commercial area is Mixed Use Village Center, occupying 31.7 acres and proposing approximately 85,000 square feet of retail and office uses. Both commercial areas are located in the southern portion of the project site. An 18-hole golf course would be developed within the eastern residential area as well as a lodge of 100-150 rooms. Approximately 37.7 acres in the western portion of the site would be set aside for a	eir	05/24/2000

	new middle school and joint recreational facilities with the parks and recreation district, and another eight acres would be used for a church site. Approximately 325.3 acres of the project site would be kept in open space. Access to the project site would be provided by existing roadways-primarily State Route 89 North (SR 89), Prosser Dam Road, and Alder Drive. Additionally, two residential access points from SR 89 would provide entry into the residential portions of the project site. Secondary access would be constructed for internal circulation, as well as a trail network of pedestrian walkways and bicycle trails. A water distribution system and a wastewater collection system would be constructed as development occurs, and other infrastructure would be constructed as development occurs, and other infrastructure would be extended as necessary. A storm Drainage Program is proposed to provide comprehensive drainage facilities, and a Master Drainage Plan would be submitted with each phased development plan.		
1999022060	Tahoe Keys Marina Master Plan EIR South Lake Tahoe, City of South Lake Tahoe--El Dorado expand existing marina capacity.	eir	05/24/2000
1999042051	EIR for the Underhill Area Projects University of California, Berkeley Construction of up to 900 beds of University housing; replacement of parking capacity lost as a result of parking Structure D demolition; restoration of recreational sports field former located on roof of Parking Structure D; construction of new seismically safe dining facilities; consolidation of University offices in the area, currently is leased and temporary spaces.	eir	06/09/2000
1999031017	Los Angeles County + University of Southern California (LAC+USC) Medical Center Replacement Project EA/EIR Los Angeles County - Public Works Under the proposed alternative, LAC+USC would improve the existing medical services on campus by replacing and consolidating five primary healthcare facilities with one new (600 bed) hospital. The proposed project would consist of construction and demolition activities of the following four structures for the Medical Center: 1) 600-bed treestanding hospital; 2) diagnostic and treatment building; 3) central plant; and 4) outpatient department building. Two other alternatives, a 950 bed alternative and the no project alternative are evaluated in equal level detail in the document. The proposed hospital would respond to changing healthcare needs that are resulting in increased demand for outpatient services and decreased inpatient care. The existing General Hospital would also be closed and maintained until a future use is identified. The existing Women's Hospital would also be closed and would remain vacant until a future use is identified. Potential reuse of the existing Outpatient Clinic is considered in the EA/EIR.	fin

<b><u>Documents Received on Wednesday, April 12, 2000</u></b>			
2000041050	TPM 20408, Log No. 98-19-017 Monroy TPM San Diego County, DPLU Jamul--San Diego The project is a minor subdivision of 19.7 acres in 2 parcels. An existing residence will remain on Parcel 1 of 10.18 acres and Parcel 2 will be 9.51 acres. The existing house and any future residence built on Parcel 2 will be on septic and will utilize groundwater. A 20-foot wide road easement will be included in the project along the southern boundary of the property to allow access from adjacent parcels to Lyons Valley Road. The project is within the Metro-Lakeside-Jamul Segment of the County of San Diego Subarea Plan of the Multiple Species Conservation Program (MSCP). Steep slope, Biological and Fire Clearing Easements are included in the design of this project for the protection of steep slopes. Coastal sage curb and a small drainage.	neg	05/11/2000
2000041051	North County Community School San Luis Obispo County Atascadero--San Luis Obispo New Community School -2 classrooms, Library, Administration, Multi-Purpose, kitchen and covered corridors, service site work, off-street parking, landscaping, curbs, gutters, sidewalks and street paving.	neg	05/11/2000
2000042033	Petaluma Marsh Expansion Project Caltrans #4 Novato--Marin The Project will restore approximately 102 acres of diked bayland to tidal marsh habitat incorporating tidal sloughs, tidal ponds, and pickleweed/cordgrass marshplain. Tidal action will be restored by grading down existing levees and cutting breaches in the levees, creating channels to the interior portions of the site. Tidal ponds will be constructed using fill graded from the existing levees. After completion, the parcel will be incorporated into the adjacent Petaluma Marsh Wildlife Area.	neg	05/11/2000
2000041040	Oak Protection Program Santa Barbara County --Santa Barbara The primary objective of the Oak Protection Program is to avoid or prevent large-scale removal of native oak trees without permits and/or environmental review where necessary, and to institute a County goal of no net loss of native oak trees over time. An additional objective is to provide enhanced protection for native deciduous oak trees (predominantly valley and blue oaks), which are in more rapid decline and are more directly threatened by agricultural and urban expansion than native live oak trees. A further objective is to regulate removal in a manner consistent with the County's Agricultural Element, which states in Goal 1 that "Santa Barbara County shall assure and enhance the continuation of agriculture as a major viable production industry in Santa Barbara County. Agriculture shall be encouraged. Where conditions allow, (taking into account environmental impacts) expansion and intensification shall be supported." This means that while protecting oak trees, the regulations should not place undue restrictions on the reasonable use of agricultural land for the production of food and fiber. The Oak Protection Program seeks to achieve that balance.	nop	05/11/2000

## CEQA Daily Log

<b><u>Documents Received on Wednesday, April 12, 2000</u></b>			
2000041047	Optimum Basin Management Program Inland Empire Utilities Agency --San Bernardino Implementation of Optimum Basin Management Program to manage the Chino Groundwater Basin for the long-term benefit of all users and producers.	<b>nop</b>	05/11/2000
2000042034	Supplement to the Southeast Area Specific Plan Environmental Impact Report (EIR) for the Sycamore Ranch Community Facilities District No. 1, Phase 2 Project Woodland, City of Woodland--Yolo The Sycamore Ranch CFD No.1, Phase 2 improvements would involve roadway improvements and utility line installation anticipated as part of the Southeast Area Specific Plan in the Sycamore Ranch area. The Proposed Project would include roadway improvements and utility installations along the following: Pioneer Avenue, Gum Avenue, Bourn Drive/Court, Gibson Road, Ogden Street, County Road 102, County Road 23, and Kincheloe Drive within and adjacent to Sycamore Ranch (see figure 2). Roadways would be widened to full or partial arterial standards (two travel lanes each direction with raised median) at all or portions of Pioneer Avenue, Gibson Road, and County Road 102 along existing alignments. Gum Avenue would be widened to collect standards between Pioneer Avenue and Klenhard Park. Roadway modifications would also include: new curb, gutter, and sidewalks along all or portions of Gibson Road, County Road 102, County Road 23, Pioneer Avenue, and Bourn Drive/Court; landscaping, installation of traffic signals at key intersections, restriping; and installation or activation of street lights. Water, sewer, and storm drainage connections and conveyance lines would also be installed at certain locations (see Figure 2). The proposed infrastructure improvements would not result in any changes in land use, population, or traffic and circulation that were not previously assumed and analyzed in the certified EIR. It is assumed that relevant mitigation measures adopted as part of the Southeast Area Specific Plan EIR would be implemented to mitigate construction and operational impacts resulting from development of the proposed project.	<b>nop</b>	05/11/2000

1999111080	Campus Master Plan 2000 California State Polytechnic University Pomona, Walnut--Los Angeles Master Plan to guide development on Cal Poly Pomona campus during 2000-2010 period. Includes 3.37 million square feet of new facilities and improvement to support 20,000 full-time equivalent student enrollment.	<b>eir</b>	05/30/2000
1999112094	Potential Modifications of the Urban Limit Line, Contra Costa County GPA Study Contra Costa County --Contra Costa Pursuant to the California Environmental Quality Act, a Draft Environmental Impact Report (EIR) has been prepared for a potential amendment to the Contra County General Plan, 1995-2010, to modify or adjust the boundary of the County's Urban Limit Line. The Urban Limit Line, as referenced in the General Plan's Land Use and Open Space elements, establishes the outer limit for the unincorporated area of Contra Costa County in which urban development may be considered. The boundary modifications would occur in multiple locations in the County that are eligible for placement outside the Urban Limit Line according to criteria established under Measure C: The 65/35 Contra Costa County Land Preservation Plan Ordinance (1990). If implemented, the boundary modifications would place up to 15,000 acres in the area outside the Urban Limit Line for the duration of the current General Plan.	<b>eir</b>	05/30/2000
2000044004	59.54 Acre Trust Acquisition for Mooretown Rancheria Bureau of Indian Affairs, Central Calif. Agency Oroville--Butte Trust Acquisition of 59.54 acres and construction of up to 50 housing units.	<b>fon</b>	05/22/2000
1996092067	Application to Appropriate Water No. 29910/29911 Water Resources Control Board, State Philo--Mendocino Water Right applications 29920 and 29911 seek a right use 82.9 acre-feet of water. Water would be diverted from December 15 through March 31 of each year. There are three points of diversion: Two located on unnamed streams and one on the Navarro River, all in Mendocino County. Water will be used for irrigation and frost protection of 40 acres of vineyard and domestic use.	<b>neg</b>	05/15/2000
2000041059	DURSOL Laguna County Sanitation District Santa Maria, Orcutt--Santa Barbara The Laguna County Sanitation District (District) provides municipal wastewater collection, treatment and disposal for an unincorporated portion of Santa Barbara County (Orcutt area) and the southern portion of the City of Santa Maria. The Orcutt Community Plan Update Environmental Impact Report (EIR) (Santa Barbara County, 1995) addresses growth in the Orcutt area, including 6,300 residential units and 2.3 million square feet of commercial and industrial land uses. The EIR acknowledged that the Orcutt Community Plan would induce growth by removing physical impediments to growth, including the lack of adequate sewage transport capacity. However, the EIR includes mitigation measures to offset environmental impacts associated with this growth. One of these measures, Mitigation Measure WW-2, requires the construction of trunk and feeder lines to serve full buildout of the Community Plan.	<b>neg</b>	05/15/2000
